Lernraum
German

Description Im Lernraum erledigen die Schülerinnen und Schüler selbständig die Hausaufgaben, wobei sie in der Planung und Erledigung unterstützt und beraten werden. Hausaufgaben dienen dazu, die Selbständigkeit und das eigenverantwortliche Lernen der Kinder zu üben.

Wenn die Kinder ihre Hausaufgaben gemacht haben, stehen den Kindern verschiedene Spiele zur Verfügung. Auch das freie Basteln oder das Lesen von selber mitgebrachten Büchern und das Arbeiten mit Antolin ist möglich (Passwort und Zugangsdaten bitte selber mitbringen bzw. auswendig wissen).

- Selbständigkeit und eigenverantwortliches Lernen üben
- Bei Bedarf gezielte Unterstützung erhalten
- Lesefreude fördern und Lesetraining
- Bei Spielen Kommunikation und Sozialkompetenzen üben

In the learning room, students do their homework independently, receiving support and advice during planning and completion. Homework is used to practice the independence and self-reliant learning of the children. Once the children have done their homework, they can play various games or read books, working with Antolin is also possible (please bring your own password and access data or know them by heart).

- Practise independence and self-reliant learning
- Receive targeted support as required
- Promoting reading enjoyment and reading training
- Practice communication and social skills during games

Monday	102	Art&Craft: Little Picasso	English
---------------	------------	--------------------------------------	----------------

Description Discover the artist in you!
 Paint as creatively as Van Gogh, create as innovatively as Claude Monet, build as beautifully as Michelangelo and be eager to try out new things as Picasso. A wide variety of art materials, tools and techniques will be introduced to the children. The kids will be given ample opportunities to experience, explore and express themselves freely. With these rich exposures, they will get to discover the 'little artists' in themselves.

Monday	105	Taekwondo	English
---------------	------------	------------------	----------------

Description Taekwondo is a Korean martial art. It combines combat and self-defense techniques with sport and exercise. The one thing that distinguishes Taekwondo from other martial arts is the use of powerful and diverse foot techniques. The Taekwondo student learns to defend themselves and in the process conditions and strengthens their body, while improving self-confidence, aerobic conditioning, coordination and balance, as well as learning patience, respect for others and how to focus their mind and body. Students learn respect for themselves and others, heightened concentration, increased self-discipline and self-restraint. The self-discipline and self-respect which Taekwondo develops can provide your child with the skills and mind-set necessary to resist peer pressure.

At each level one learns a little more, that builds on what has been learned before, and eventually the diligent student is doing things they might not have believed they could do at the beginning!

Musical Monkeys

German

Description Musical Monkeys is Early Childhood Music Education with high energy and lots of fun. Our classes embrace the principles of Orff-Schulwerk with a program based on early childhood research.

This class is in German and traditional songs, nursery rhymes or well-known children's songs by famous songwriters according to German seasons, traditions and holidays are taught.

It's all live music with guitar, percussion instruments and lots of singing.

- Sing, dance and move to the beat
- Play a wide selection of percussion instruments
- Explore the musical instrument of the week
- Express yourself in musical stories
- Have fun with body percussion, pom poms, scarves and other props

Musical Monkeys supports the holistic development of your child's senses and intelligence, gross and fine motor skills, social and emotional skills, language and creativity. See how your child develops music intelligence, singing skills, sensitivity to the beat and beat groups, expressive movement, and musical memory.

Moreover, the German Musical Monkeys class promotes the German language, culture and tradition.

Wednesday	304	Lego: Air, Land and Sea	English
------------------	------------	--------------------------------	----------------

Description If you like planes, trains and automobiles, then this unit is for you! Each week, students will build motorized models of a dragster, a railroad crossing gate, an airplane and more. Explore the history of transportation from horse and buggy and trains to the development of the automobile and flight. Each lesson introduces terminology related to each mode of transportation, like “lift and propulsion” for the airplane, as well as describes how each “vehicle” works. And the best part is -- the models are so much fun to play with! Lots of building fun ahead with motorized models of a train, car, dragster and airplane. These models rock, roll and spin! Your child can follow our step-by-step model plans to create their vehicle, then customize it to their own specifications and take their mini-figure for a ride! Our learning goals include:

- Reinforce math and science concepts
- Develop an appreciation for how things work
- Build self-confidence and problem solving skills
- Foster teamwork
- Trigger children’s lively imagination
- Provide a safe, enriching place to create and play

Thursday	401	Ukulele Kindergarten	English
-----------------	------------	-----------------------------	----------------

Description The small and diminutive ukulele cannot be underestimated in the music world. Despite its size, the ukulele sounds beautiful, very charming and easy to play with some lessons. In this course, students will learn to hold the ukulele correctly, how to press strings down to the fret board and play songs that they like. Students will look forward to playing their ukuleles all time! It's a terrific confidence booster for them when they can play songs to each other and also to their families. They will also have a better appreciation for music!

Thursday	402	Ukulele Primary	English
Description	<p>What a fun semester of ukulele it has been! The students have learned so many of their favourite songs and even performed! With all the chords and rhythms they've learned, it's time to step it up a little. In this course, they'll learn to fingerpick strings, new rhythms and new chords. They will also learn to play in different sections of a song simultaneously which is good to train their ears and listen to each other to play in the same beat.</p> <p>This course is for students who have taken the previous ukulele courses. Students who weren't in the course previously are welcome to join if there are vacancies.</p>

Thursday	403	Kids Yoga	English
Description	<p>Every week in yoga, we balance as trees, planes, or observe the world upside down from our headstands! We stretch and move around as dogs, cats, or other yoga poses and use our imagination to travel, on our mats. We also learn to breathe deeply, relax, sometimes even meditate, to end the classes peacefully and quietly.</p> <p>So Yoga classes are fun, dynamic and interactive through games, yoga poses, breathing techniques and relaxation exercises. What else? Yoga makes kids happier! Yoga improves children's flexibility, strength, posture, balance and releases some stress. It also improves their sleep quality and channels their energy.</p> <p>As children learn to relax, concentrate and be gentle in a fun, creative and non-competitive environment, they are also introduced to a healthier lifestyle.</p>

Friday	503	Kinderturnen	German
--------	-----	--------------	--------

Description Die Kinder dürfen in der Turnhalle ihren natürlichen Bewegungsdrang ausleben. Unter einem bestimmten Thema (wie z.B. Schneegestöber, Höhlenforscher oder Magische Welt) werden wir in unserer Bewegungslandschaft gemeinsam Abenteuer erleben, uns austoben oder auch entspannen. Spassige Fang-, Lauf- und Konzentrationsspiele bereiten den Kindern viel Freude und sind genauso wie begleitende Musik, Lieder und Bewegungsreime Teil der Stunde. Spielerisch erfahren wir die Bewegungsarten Laufen, Klettern, Springen, Werfen, Rollen, Drehen, und stärken und fördern gleichzeitig die Gesamtentwicklung der Kinder in allen Bereichen.

On Friday afternoons, the children can enjoy their natural urge to move in our MPH. Under a certain topic (such as snow flurries, magic world, etc.) we will experience adventures, exercise hard or even relax together in our movement landscape. Catching, running and concentration games are as much fun for the children as accompanying music. We playfully experience the movement types of running, climbing, jumping, throwing, rolling, turning, and at the same time strengthen and promote the overall development of the children in all areas.

Friday	505	Cooking Fun!	English
---------------	------------	---------------------	----------------

Description Nothing brings friends & family together the same way that food does. We seek to bring more children into the kitchen to explore a world of food, ingredients, getting their hands dirty... and of course, to savour the fruits of their labour! While whipping up their feasts and having a ball of a time while at it, children pick up many crucial skills, like language, numeracy, science, problem-solving, working in teams, motor skills, and much, much more. The kitchen is a treasure trove of lessons, and we want to share them with every child! Being a locally-own business, we also want to impart and share some of the joys of local culinary treats to the Swiss School students and families!

Friday	511	Magnetic Levitation Trains	English
--------	-----	----------------------------	---------

Description Innovative “MagLev” or magnetic Levitation trains move by using magnets instead of wheels. This class shows you the technological innovation behind the trains. You will send magnets for sailing help magnets hover and poke around magnetic fields. Using design process engineering and what you have learnt about magnets, you will design, test and improve your own tabletop maglev transportation system.

Our learning goals include:

- Introduction to magnetic levitation innovation
- Introduction to the physics of magnetism
- Introduction to engineering design process in transportation system
- Implementation of design engineering process through building tabletop maglev system

Friday	551	MUKI-Turnen	German
---------------	------------	--------------------	---------------

Description Mütter, Väter, Grosseltern oder Helfer sind angesprochen sich mit ihrem Kind aktiv zu bewegen.
 Unter einem bestimmten Thema (wie z.B. Bauernhof, Höhlenforscher oder Winterzeit) werden wir uns in unserer Bewegungslandschaft gemeinsam austoben oder auch entspannen.
 Spassige Fang-, Lauf- und Konzentrationsspiele bereiten den Kindern viel Freude und sind genauso wie begleitende Musik, Lieder und Bewegungsreime Teil der Stunde.
 Spielerisch an der Hand der Eltern oder auch allein erfahren die Kinder die Bewegungsarten Laufen, Klettern, Springen, Werfen, Rollen, Drehen. Wir werden gemeinsam spielen, probieren, entdecken, erfinden, erleben, erfahren und uns auf vielfältige Art und Weise in der Turnhalle bewegen.

Mothers, fathers, grandparents or helpers are invited to actively move together with their child.
 Under a certain theme (e.g. farm, or winter time) we will work out together or even relax in our movement landscape.
 Catching, running and concentration games are as much fun for the children as accompanying music. Songs and movement rhymes are part of the lesson as well.
 At the hands of the parents or alone, the children experience the movement types running, climbing, jumping, throwing, rolling, turning. We will play, try, discover, invent, experience, and move around the gym in many different ways.
