

# Meet Our New Teachers

We warmly welcome five new teachers to the Swiss School in Singapore for the school year 2019/2020. Learn a little about each of them here.

## Murielle Quenzer, French Stream P1/2 Class Teacher

Bonjour! I am Murielle Quenzer and I will be the French stream's new teacher. I can't wait to start this challenge and I am

very glad to be part of the SSIS team. I have a Master in Sciences of Education and have been a primary teacher for more than twenty years. I love working in a multicultural environment and I'm happy to have experienced it in different places like Argentina, Colombia, Hong Kong and Switzerland. I enjoy discovering new cultures, countries and people and I am looking forward to my new life in Singapore.

During my free time, I love spending time with nature, reading a good book and travelling around the world. As a chocolate eater, I also have to do some sport!

In my teaching, the keywords are success, curiosity, mutual aid and autonomy. I feel very proud to be able to contribute to the development of each child's potential. And because my work can't be done without the cooperation of colleagues and parents, let's embark on a wonderful adventure together!"

## Debora Kim Fehr, P4/5 Class Teacher

I am 33 years old and have been working as a primary school teacher for the past ten years. My passion and fascination for learning lies in finding creative solutions

to support the students in the achievement of their goals. Assisting them in expanding their knowledge and developing their skills is a dynamic and very personal process, which I enjoy being part of.

In addition to working part-time, I completed a Master of Advanced Studies in Effective Management of Diversity in 2017. This allowed me to expand my knowledge of teaching and gave me a more thorough insight into my professional field.

People see me as an open-minded and joyous person who loves to laugh. I like to spend my free time with nature as well as socialising with groups of friends. I cherish life as a gift and try to enjoy every moment of it."

## Daniela Richert, Kindergarten Class Teacher

Hi, my name is Daniela Richert, I'm 45 years old, married and I have three

children. I came to Singapore in the summer of 2018 and since then

I've studied English at an international school. Although I've been teaching kindergarten classes for over 20 years now, I'm very excited about this new challenge.

When I'm not teaching, I like to spend my time with my family and our family dog, travelling around the world, reading a lot of books or taking long, relaxing walks. I love to discover new places, cultures and meeting new people. And even with my average English knowledge, I try to communicate with other people as much as I can."

## Nadine Sadek, English Subject Teacher

My name is Nadine Sadek and I am very excited to be joining the Swiss School team in Singapore as an English teacher

for the 2019/20 academic year. I recently relocated to Singapore with my husband and two boys in September of last year. We are a typical expat family with a multi-cultural, international character and several different languages spoken at home to boot so it was no surprise that I jumped at the opportunity to join the Swiss School faculty where several languages are heard spoken every day.

As a youngster, I grew up in a diplomatic family and had the great fortune to spend my entire childhood and youth traveling around the world. I completed my Bachelor of Arts Degree in Government and Spanish literature at Cornell University in the United States and proceeded to obtain my Master of Education from The College of New Jersey some years later. Although my interest in international affairs and languages of the world was evident in most aspects of my life, nothing has given me the same fulfillment and satisfaction that teaching has provided. I have taught in the USA, Egypt, Indonesia, Italy and now, I am very excited to be teaching in Singapore."

## Yvonne Zweifel, Special Needs Teacher

I'm Swiss and I started at the Swiss School in Singapore with 17 years of experience as a teacher. I worked for ten years as a

primary school teacher and later studied special needs education, from which I graduated in 2016. During my studies, I lived and worked one year in London. For the last five years, I've been employed as a special needs teacher in Eschenbach SG.

When I'm not teaching, I like to travel the world. I've been on several longer journeys in Central and South America, Australia and Asia. I love to discover new places, engage with people and practise languages. I look forward to being part of the Swiss School community in Singapore."
