

Swiss School in Singapore's Project Week: All About Singapore!

'All About Singapore!' was the theme of this year's Project Week for our Kindergarten and Primary 1 and 2 classes. The objective of this departure from classroom learning was to introduce our children to stories, traditions and places in Singapore.

OUT AND ABOUT

Our children spent the week in mixed age groups, attending various workshops and out and about on excursions.

Accompanied by their teachers, the students explored Peranakan House, where they learned more about the unique Straits Chinese culture and had a taste of

Peranakan cuisine. At the Asian Civilisations Museum, they were intrigued by the fascinating relics of Singapore's colourful past. And at Haw Par Villa, they learned about traditional Chinese folklore. En route, they visited various park and playgrounds around the island, stepping out of their comfort zones and stepping into neighbourhoods that were new to them.

LEARNING IN ACTION

The Project Week was definitely an educational yet action-packed week for the children. The week flew by and our students took away a wealth of precious knowledge about Singapore, the amazing little country they call home for now.
